

Q&A about Flea Free Food Supplement

Q How does Flea Free Food Supplement work?

A When Flea Free is added to the pet's drinking water, it works internally to emit an enzyme that hides the protein the female flea needs to detect in order to lay eggs. Because she doesn't sense that protein, she jumps off the pet and elsewhere. If she doesn't draw blood every 20-22 hours, she dies. Male fleas don't bite.

Q How long does it take to work?

A Depending on the pet's weight, metabolism, and infestation—along with the overall health of the pet—it can take as little as 3 days or as long as 4 weeks. The average is 6 to 10 days. White animals take the longest.

Q Does it really work?

A Yes. Many people swear that Flea Free is the only thing they've found that works on their pets. We don't claim that it works 100% of the time, but it works well enough that we're confident in saying "either it works, or it's free."

Q Can I use Flea Free with other vitamins and supplements?

A Absolutely. Flea Free can only enhance your pet's health and wellbeing.

Q Is it safe?

A Yes! Flea Free is all natural. It's a whole food item that contains no chemicals, preservatives, artificial colorings, or flavorings. It is simply garlic, vinegar, citrus, and herbs that are essential for good health.

What about Other Natural Products?

Beyond Flea Free products, we offer a line of Citrus Magic and Household Orange products for "green" housecleaning tasks. We also have an assortment of other products. See the price list on the other side

We also offer Life's Abundance holistic health food and other products for pets and people. See those products at www.LifesAbundance.com/PawPrints.

Flea Free Natural Repellant Products

Virgil and Rebecca of **PawPrintsLife** are proud to offer you safe, high-quality products to repel problem insects. Flea Free has worked hard to develop them for the safety of people and pets.

We welcome your comments, because we care about what you think. The responses and results received from Flea Free customers are phenomenal. And in the last 20 years, Flea Free has had less than 0.01% returns.

We offer you the very best quality for healthier, happier pets and a safe environment. These products use the benefits of vinegar and garlic, along with selected herbs, to develop products that provide vitamins, minerals, amino acids, and enzymes. Our goal is to safely protect your pet and your family from annoying insects.

Flea Free is manufactured by Natural Pet Products

PawPrintsLife Presents Natural Flea Free and Other Natural Products

Flea Free is a line of safe and natural products for your pets. Easy to use and inexpensive, Flea Free Food Supplement not only gets rid of fleas and ticks, but it is also nutritious, safe, and healthy.

A natural way to eliminate fleas and ticks without subjecting your pets, your family, or the environment to dangerous poisons or harmful chemicals!

Flea Free Food Supplement is a garlic- and vinegar-based formula. It helps provide natural flea protection for pets with all the medical benefits of garlic and vinegar. It takes just one tablespoon per quart of drinking water or one teaspoon (or less) in the pet's food. Or it can be used in both. You can't give too much, but it's not necessary to give more than recommended.

We also offer Life's Abundance holistic health food and other products for pets and people. See those products at www.LifesAbundance.com/PawPrints.
